LATEST BRIEF · LIVE

"Storefront sync confirms **156 products** across **12 collections**: 18 core, 25 limited, 102 collectors, 19 apparel. The **10% off sticky tab is dead** on the live site (Privy display 4446686). **GA4 pixel is restored** after the duplicate disconnect. Three open ops decisions: Shopify Admin auth, Trustpilot vs Judge.me, and shipping wes theme to live."

— ATLAS · synthesised from real storefront + this session's ops · 4 connectors live, 4 awaiting auth

What the channels are doing

Wolfburn at a glance

A screenshot of the Wolfburn website. The 'Brand' section features a paragraph about the distillery and a row of five color swatches. The 'Hero products' section displays two bottles with their names, alcohol percentages, and prices. The 'Quick links' section contains two buttons: 'wolfburn.com' and 'Shopify admin'.
